Summary

Motivated Computer Science graduate with hands-on experience in full-stack web development, healthcare information systems, embedded systems, and machine learning projects. Strong in building scalable, secure, and real-world software solutions using modern technologies.

Education

- **Bachelor of Science in Computer Science** (2020–2025)
Independent University, Bangladesh
CGPA: 3.00 / 4.00
- **Higher Secondary Certificate (Science)** (2018)
Major General Mahamudul Hasan Adarsha College, Tangail
GPA: 4.67 / 5.00
- **Secondary School Certificate (Science)** (2016)
Sristy Academic School, Tangail
GPA: 5.00 / 5.00

Skills

- **Programming Languages**
JavaScript, Python, Java, SQL, HTML, CSS, PHP
- **Frameworks & Libraries**
React, Next.js, Node.js, Express.js, Django, OpenCV
- **Databases**
MongoDB, PostgreSQL, MySQL
- **Tools**
Git, GitHub, WordPress, REST APIs

Projects

- **Healthcare Information Management System**
Full-stack healthcare platform to manage patients, doctors, laboratories, pharmacies, and medical records using React, Next.js, Node.js, Express, MongoDB, and PostgreSQL.
- **Suspect Detector (Raspberry Pi)**
Real-time facial recognition system using Python and OpenCV that detects suspects and triggers alerts to enhance security and surveillance.
- **Human Presence Detection System**
Motion-based security system using ESP-WROOM-32 and PIR sensor with buzzer and alert integration.

- **Image Security in Cloud**

Secure cloud image storage system using hybrid cryptography (AES + ECC) with performance and security analysis.

- **Post-Harvest Loss Analyzer**

Web-based system to analyze post-harvest losses using HTML, CSS, JavaScript, PHP, and MySQL with dashboards and data export.

- **ML-Based Real-Time Deforestation Tracking**

Django-based platform that analyzes satellite imagery to detect deforestation with real-time monitoring dashboards.

Experience

- **Beenovia**

2024 (3 Months)

Software Development Intern

Contributed to the development of a Healthcare Information Management System by implementing responsive frontend components using React and Next.js, creating RESTful APIs with Node.js and Express, and handling data storage with MongoDB and PostgreSQL.

- **Debuggers Studio**

2022–2023

Content Writer

Created technical and SEO-optimized content and managed websites using WordPress.

Certifications

- **Web Development & Full Stack Projects** — Academic and Internship Based

Languages

- English — Fluent
- Bengali — Native
- Hindi — Intermediate
